Office 365

Office 365 is used by 4 out of 5 Fortune 500 companies and has shown immense value for business of all sizes. With one million users signing up each month, can you afford to be left behind?

HOW CAN OFFICE 365 BENEFIT YOUR BUSINESS?

- Pay a monthly operational cost only for what you use.
- Reduce CAPEX spend on Office, Exchange, SharePoint and Skype for Business and change to OPEX model.
- Microsoft Office 365 provides 99.9% uptime.
- Backups and continuity are included in monthly fees.
- Remove dependencies on centralised infrastructure, which can fail and cripple regional offices.
- Reduce electricity consumption costs.
- Improved communication and virtual meetings using Skype for Business.
- Ensure Office is always up to date and on the latest version.

What Is OFFICE 365?

- Office 365 is a suite of products and services provided, hosted and maintained by Microsoft. The suite consists of products which are installed locally on workstations/tablets.
- (Office components such as Word, Excel, Outlook, PowerPoint and Visio) as well as other products, such as SharePoint Online, are cloud based.
- The Office 365 suite allows businesses of any size to rent Office and other products/services for a monthly fee. This fee provides backup, continuity, maintenance and upgrade services.
- This means no costly upgrades and legacy systems which hold your business back.
