Mundane repetitive maintenance tasks can take valuable productive time away from staff

What Are The Issues Around Workstation Maintenance?

- ✓ The IT environment is complex
- ✓ IT Staff struggle with minimal tools to maintain
- ✓ Critical maintenance is neglected
- ✓ IT staff end up putting out fires as they happen, instead of being able to act proactively

How Can IT Automation Tools Help my Business?

- ✓ Maintenance tasks are automated, leaving IT Staff to focus on more important strategic issues
- ✓ IT staff can act proactively, instead of off-the-cuff
- ✓ Higher staff retention can be a possibility with Automated Tools
- ✓ Less recruitment fees due to higher retention of staff
- ✓ After hours maintenance means less interruption for IT Staff

How Can Evolv Help?

- Evolv has specialised IT Management Toolsets which will help with:
- ✓ Providing Technical staff with simple tools to ensure maintenance is effective
 - ✓ Visibility into all business systems
 - ✓ Automating monotonous maintenance tasks
 - ✓ A Proactive manner at looking at issues

Why spend huge amounts of cash on replacing internal IT staff when you can give them the tools to assist
