Firewalls and Gateways rarely deliver on customer expectations in terms of reporting and management. Let us show you how it is supposed to be done.

What Are The Risks To My Business

- ✓ Reporting on firewall traffic will not reflect abusive staff usage
- ✓ Security updates are not applied and this allows hackers in
- ✓ Critical systems which run on single firewalls can fail
- ✓ Subscriptions expire and website, Anti-Virus and Intrusion scanning stops

How Will These Risks Affect My Business?

- ✓ Staff productivity decreases
- ✓ Security breaches occur, as hackers find ways around firewall
- ✓ A single firewall failure results in total outage
- ✓ Staff can access dangerous content, which is normally blocked, leading to infections

How Can Evolv Help?

By providing gateway services, you can:

- ✓ Ensure staff remain productive with applicable restrictions in place
- ✓ Implementing firewall security updates will block vulnerabilities
- ✓ Apply high availability firewall configuration in active and passive
- ✓ Manage subscriptions to ensure security remains in place

Don't let just anyone in.
