- ✓ NETWORK ACCESS CONTROLLING
- ✓ PASSWORD SERVICES
- ✓ EMAIL THREAT PROTECTION
- ✓ SECURITY UPDATE MANAGEMENT
- ✓ VULNERABILITY SCANS
- ✓ PENETRATION TESTING
- ✓ ROAMING STAFF WEB FILTERING
- ✓ RANSOMWARE PROTECTION

You protect your business by means of keys, biometric finger print readers, Armed Response and CCTV for physical security. Then why neglect your IT security?

How Can IT Security Threats Affect Your Business?

- ✓ By not auditing remote access you allow perpetrators to connect to your system during non-business hours
- ✓ Poor configuration on gateways and firewalls allows easy access to your systems via “phone home” tools such as Teamviewer
- ✓ Mobile devices are allowed unrestricted access to your network and bring in unwanted threats
- ✓ Staff plug personal devices onto the network which can carry harmful viruses and Ransomware
- ✓ Passwords are written down and poorly managed, allowing easy access
- ✓ Word, PDF and Excel documents are not scanned for malicious “weaponised” content, allowing hackers free rein
- ✓ Security updates are not maintained on workstations and servers, leaving gaping security holes
- ✓ Vulnerability and penetration scans are not performed to identify issues

How Can Evolv Help?

By implementing the correct security mechanisms, you can:

- ✓ Control and audit remote access
- ✓ Ensure that only authorized traffic passes through the firewall and all traffic is scanned, including encrypted traffic
- ✓ Manage and secure mobile devices to avoid harmful viruses infiltrating
- ✓ Segment unauthorised computers onto separate networks, where they can do no harm
- ✓ Implement 60 second passwords which are stronger and cannot be logged or guessed
- ✓ Scan documents prior to reaching workstations, to identify weaponised attachments
- ✓ Automate security updates for Microsoft and 3rd party’s
- ✓ Implement Vulnerability and Penetration tests, which can identify the gaps in security for remediation

Don’t neglect your IT security. The damaging effects will be far greater than physical theft
